# Spine

Premium products for spine surgery

Improving quality of life together

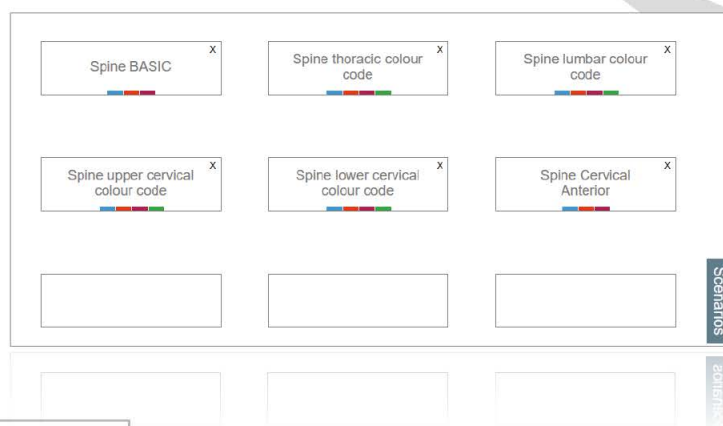

**Combine outstanding quality with ease of use for efficient spine neuromonitoring**

Ready? Set. Go!

## 3 steps to start monitoring

### 1 Software starts automatically

Choose level

### 2 Connect electrodes

« M. trapezius  
M. vastus medialis »

inomed

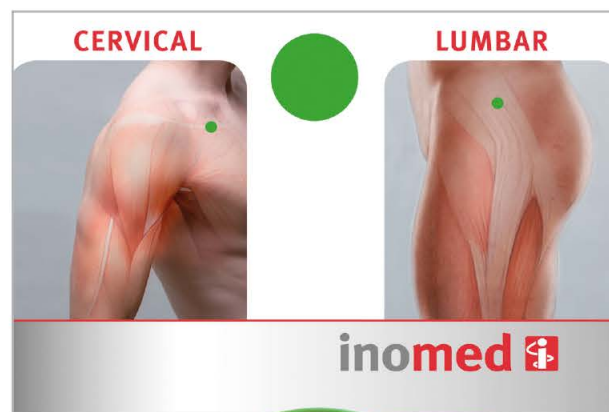

### 3 Start monitoring

Intuitive setup

## Postoperative deficits?

Invest in their prevention, as intraoperative neuromonitoring shows changes in function before they become relevant. Ensure patient safety during any stage of spine surgery.

Colour-coded ha  
and accessor

Adaptor box  
with colour code

Spine surgery set for EMG recording

## Choose your favourites
